THEOROY AND PRACTICE OF TEACHING.

ENGLISH LITERATURE.

DESCRIPTIVE ASTRONOMY.

REMARKS

ON THE COURSE OF STUDY.

Especial attention will be given to the instruction in the Common School branches. Care will be taken to present the subject in a plain and practical manner.

GRAMMAR SCHOOL DEPARTMENT.

In this course will be taught the most important branches of a good education. While it meets the needs of those who are preparing to enter college, it is also well arranged for those who cannot avail themselves of college privileges. A certificate of graduation is given to pupils upon the completion of this course, and a diploma upon completing the academic course.

ENGLISH HISTORY AND LITERATURE.

The public mind is rapidly becoming awakened to the fact that the English language should receive more attention in our common schools. The mother tongue and the masterly works written in it are of supreme importance to the English speaking race. A taste for good literature is one of the strongest safeguards against pernicious reading. These facts have caused us to devote unusual time to the branches of English education.

TEACHERS' AID.

While we do not aim to give undue prominence to preparation for any particular profession, yet the theory and practice of teaching is taught, and attention will be given to school economy, art of school management and other subjects of interest to those who intend to teach.

MATHEMATICS.

Our course in mathematics will be seen to embrace such branches as will give one a practical knowledge of the subject and enable him to make any ordinary calculations.

NATURAL SCIENCE.

It is our aim along with imparting a knowledge of the fact to teach the subject in such a manner as to lead the pupil to original investigation.

COMPOSITION.

Essay and letter writing will receive especial attention in connection with the study of language.

ANNOUNCEMENT AND PROSPECTUS.

Friends' Pacific Academy is located at Newberg, Yambill county, Oregon, on the narrow gauge railroad, 22 miles from Portland, and one mile from Rogers' landing on the Willamette river.

. NEWBERG

Is a small village, of recent growth, situated in a beautiful valley among the mountains of western Oregon, and has a healthful and agreeable climate. It is a temperance town and has a moral and enterprising class of people. There are no saloons nearer than eight miles. People desiring to put their children in school where the whole community is interested in keeping out undesirable influences and encouraging education and religion, will find no better place than Newberg. The Academy is the one object of interest to the citizens of the town, and no pains is spared to make the town homelike to students. The homes of all the best citizens are always open to them, and the exercises in church and Sabbath school are adapted to their needs.

THE ACADEMY

Was opened for pupils September 28, 1885. The past year of school has been successful, and the coming year promises to

be still more so. Arrangements have been made to erect a boarding hall for the accommodation of pupils living at a distance from the school. The need of such a building having been felt during the past year. The Academy building is a commodious and handsome two story structure, beautifully situated.

EXAMINATIONS.

Written examinations will be required in ascertaining the standing of pupils before assigning them to places in the school, also in advancing them from one grade to another.

LITERARY EXERCISES.

Exercises for improvement in composition and recitation will be required of all students throughout the course.

GOVERNMENT.

Since immoral and sinful practices are incompatible with the highest mental or physical development, no one is desired as a student who is not willing to abstain therefrom, and since some amusements (while they are not considered sinful by some) are calculated to distract the minds of pupils from their studies, they also are strictly excluded from the pastimes or recreations of pupils while attending the Academy. The attendance of the pupil then is taken as an assurance of a ready and willing cooperation with the teachers in those measures thought necessary for the best interests of the school, and it will be the aim of the instructors to so fill the time with profitable and interesting employment that there will be no room left for evil.

EXPENSES.

Good board in private families can be obtained for from \$2.50 to \$3.00 per week. The total expense to those boarding in the hall for the school year, not including the two weeks vacation, and including tuition, board, fire, lights, etc., will be \$110.00. But pupils will be expected to furnish their own room except bedstead and mattress, stove, chair and washstand. Only ladies will be lodged at the boarding hall, though young men

14 14

PACIFIC UNIVERSITY.

can ttake heir meals there. Arrangements have been made for lodging elsewhere. Rooms can be rented by those wishing to board themselves. Where pupils live near the Academy this plan is found to be satisfactory. Several cottages will be in readiness for this purpose, and the rent will be reasonable. Especial pains has been taken to provide ample and comfortable rooms for this purpose, and in this way the expense of attending school is rendered almost nominal. The boarding hall will be under a careful and experienced manager.

TUITION.

The tuition will be at the rate of \$7.50 each for the spring and fall terms, and \$8.00 for the winter term in the Grammar School course; and \$9.50 each for the spring and fall terms, and \$10.00 for the winter term in the Academical course.

Tuition due at the commencement of each term.
